

Section 1 — Identification: Product identifier and chemical identity

Product identifier

Product name: **Soap**

Recommended use of the chemical and restrictions on use

Recommended use: Hair & Body cleaning

Restrictions on use: None identified.

Details of manufacturer or importer

Company: **Reward Hospitality (ABN 40 010 183 669)**
1 Arthur Dixon Court, Yatala 4207, QLD Australia

Telephone: +61 7 3441 5800
Network address: www.rewardhospitality.com.au

Section 2 — Hazard(s) identification

EMERGENCY OVERVIEW

This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. Additional information on toxicological endpoints is available from the supplier upon request.

Label elements, including precautionary statements

Hazard pictogram(s):

Signal word: **WARNING**

Hazard statement(s): Causes eye irritation

Precautionary statement(s): **Prevention:**

Wash thoroughly after handling.
Wear eye protection/face protection.

Response:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

Section 3 — Composition and information on ingredients

Mixture

Name	CAS
OLIVE OIL	8001-25-0
WATER	7732-18-5
ETHYLENEDIAMINETETRAACETIC ACID	6381-92-6
GLYCERINE	56-81-5
ALOE	84837-08-1
OTHER	/
PERFUM	PREPARATION

Section 4 — First aid measures

Description of necessary first aid measures

If inhaled: Move victim to fresh air if safe to do so. If not breathing, apply artificial respiration and call emergency medical services. Seek medical advice.

In case of skin contact: If skin problems occur, discontinue use. If symptoms persist, call a physician.

In case of eye contact: Use eyewash first aid facilities. Rinse with plenty of water for at least 15 minutes. Seek medical advice.

If ingested: Do NOT induce vomiting. Rinse mouth with water. Seek medical advice.

Medical attention and special treatment

Treat symptomatically.

Section 5 — Firefighting measures

Suitable extinguishing equipment

Small Fire: Dry chemical, CO₂ or water spray.

Large Fire: Dry chemical, CO₂, alcohol-resistant foam or water spray. Move containers from fire area if you can do it without risk.

Specific hazards arising from the chemical

Contact with molten substance may cause severe burns to skin and eyes. Avoid direct contact with hazardous chemical. Effects of contact or inhalation may be delayed. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution.

Special protective equipment and precautions for firefighters

Wear positive pressure self-contained breathing apparatus (SCBA). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Effects of contact or inhalation may be delayed.

Section 6 — Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear protective clothing and respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas.

Environmental precautions

Do not let product enter drains. See Section 12.

Methods and materials for containment and cleaning up

Soak up with inert absorbent material and dispose of as hazardous waste. Avoid generating dust. Keep in suitable, closed containers for disposal.

Section 7 — Handling and storage, including how the chemical may be safely used

Precautions for safe handling

Eating, drinking and smoking in work areas is prohibited. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage, including any incompatibilities

Safe storage: Keep container tightly closed in a dry and well-ventilated place.

Incompatibilities: Strong acids and bases. Strong oxidising agents.

Section 8 — Exposure controls and personal protection

Exposure control measures

Mixture. No known Australian exposure standards or national occupational exposure limits set for relevant ingredients.

Biological monitoring

Data not available.

Control banding

Data not available.

Engineering controls

Use only in a well-ventilated area. Provide appropriate exhaust ventilation at places where natural ventilation is not sufficient.

Individual protection measures, for example personal protective equipment (PPE)

Eye/face protection: Safety glasses. Use equipment for eye protection tested and approved under appropriate government standards.

Skin protection: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use. Wash and dry hands.

Body protection: Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle

Respiratory protection: respirator type or respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards.

Section 9—Physical and chemical properties

Test items	SALES SPECIFICATION
Appearance	No foreign body
Colour	Conform to the provisions of the color
Odour	Conform to the provisions of scent
Dry sodium soap	≥83%
Moisture, volatile matter	≤15%
Total free alkali	≤0.10%
Chloride	≤1.0%

Section 10—Stability and reactivity**Reactivity**

Data not available. Unlikely to react under conditions of intended use.

Chemical stability

Stable under recommended storage conditions.

Possibility of hazardous reactions

Alkalis reacts exothermically with acids and can initiate the polymerization of certain classes of organic compounds.

Conditions to avoid

Avoid contact with foodstuffs. Avoid exposure to heat. Avoid exposure to direct sunlight.

Incompatible materials

Strong acids, strong bases and strong oxidizing agents.

Hazardous decomposition products

Hazardous decomposition products formed under fire conditions. May include toxic and irritating oxides of carbon or nitrogen.

Section 11 — Toxicological information

Acute toxicity: Data not available.

Skin corrosion/irritation: Data not available.

Serious eye damage/irritation: Causes eye irritation

Respiratory or skin sensitisation: Data not available.

Germ cell mutagenicity: Data not available.

Carcinogenicity: Data not available.

Reproductive toxicity: Data not available.

Specific Target Organ Toxicity (STOT)—single exposure: Data not available.

Specific Target Organ Toxicity (STOT)—repeated exposure: Data not available.

Aspiration hazard: Data not available.

Section 12 — Ecological information

Ecotoxicity: Data not available. Avoid contaminating waterways.

Persistence and degradability: Data not available. Expected to be biodegradable in water.

Bioaccumulative potential: Data not available. Not expected to be bioaccumulate.

Mobility in soil: Data not available.

Other adverse effects: Data not available.

Section 13 — Disposal considerations

Disposal methods

Refer to local government authority for disposal recommendations. Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 14—Transport information

UN number: Not regulated.

Proper shipping name or technical name: Not regulated.

Transport hazard class: Not regulated.

Packing group number: Not regulated.

Special precautions for user: Date not regulated.

Additional information: Date not regulated.

Hazchem or emergency action code: Not regulated.

Section 15—Regulatory information

Standard for the Uniform Scheduling of Medicines and Poisons

Ingredients not listed.

Carcinogen classification under WHS Regulation 2011, Schedule 10

Ingredients not listed.

National Inventories

AICS: On the inventory, or in compliance with the inventory

Section 16—Any other relevant information.

This SDS summarises to our best knowledge at the time of issue, the chemical health and safety hazards of the material. It is believed to be correct but does not represent any guarantee of the properties of the material and shall be used only as a guide. We cannot anticipate or control the conditions under which the product may be used, and each user must assess and control the risks arising from the use of the material.
