

Artfully Season
with Sonoco's

AccuTaste™ Seasoning Dispenser

Applying the correct seasoning requires far more attention than what meets the eye.

With Sonoco's proprietary AccuTaste™ Seasoning Dispenser, there's no guesswork. Simply squeeze the handle to release predetermined amounts of savory seasonings or sweet sprinkles; it'll automatically reload to spice up the next dish the same way!

Use color-coded bases to dispense differing amounts of seasoning quickly and repeatably, ensuring the same desired flavor profile each time while eliminating inconsistency and guesswork! Optional conical dispensing attachment delivers greater disbursement of seasoning over intended target.

Benefits

- ▶ **Easy to Use** – Grasp ergonomic handle comfortably to effortlessly squeeze and dispense contents
- ▶ **Easy to Clean** – Wash/rinse without disassembly
- ▶ **Easy to Refill** – View content levels through clear hinged lid and refill as needed
- ▶ **Delivers Accuracy** – Patented design distributes repeatable measurements to exact taste
- ▶ **Quickly Apply** – Automatic reload triggered upon dispense to redisperse contents swiftly/efficiently
- ▶ **Holds More Seasoning** – Holding capacity more than typical dredge can or dispensing unit to reduce refills
- ▶ **Reliable Performance** – Durable design and constructed with engineered resin that is high heat capable and chemically resistant

How to Use
AccuTaste™

- 1 Open lid, fill with seasoning, snap lid securely.

- 2 Place unit over targeted area, squeeze handle and release.

Our optional conical dispensing attachment delivers wider distribution of seasoning over the intended target.

Product Specifications

NSF APPROVED
11/9/22

Carton Weight and Dimensions:
22" x 20" x 20"; weight 23.2 lbs
